

## **List of National Parks In India – State Wise Indian National Parks PDF**

A National Park is a Park use for conservation purposes. Often It is a reserve of natural, semi-natural, or developed land that a sovereign state declares or owns, although Individual nations designate their own national parks differently, there is a common idea an international organization, the **International Union for Conservation of Nature(IUCN)**, and its World Commission on Protected areas, has defined " National Park" as its category II type of protected areas.

India's first national park was established in 1936 as **Hailey National Park**, now known as **Jim Corbett National Park**, Uttarakhand. In **1972**, India enacted the Wildlife Protection Act and Project Tiger to safeguard the habitats of conservation-reliant species.

Candidates can know differences between the Major Protected Areas i.e. National Parks, Wildlife Sanctuary and Biosphere Reserves.

### **Differences between National Parks and Wildlife Sanctuaries**

1. No human activity is allowed inside a National Park while limited activities are permitted within the sanctuary.
2. Limited economic activity (sand and stone mining) is permitted in Biosphere Reserve.
